Professional Summary

Result-driven **Flutter Application Developer** with over **3 years of experience** in designing, building, and deploying scalable mobile applications using the **Flutter Software Development Kit (SDK)**. Proficient in implementing **RESTful APIs**, integrating cloud-based services, and ensuring optimal application performance and reliability. Experienced in leading cross-functional Agile teams and managing all phases of the **Software Development Life Cycle (SDLC)**. Recognized for delivering user-centric, high-quality solutions that align with business objectives and enhance digital experiences.

Technical Skills

Languages: Dart, Python, Kotlin, SQL

Mobile/Frameworks: Flutter SDK (Advanced), Provider, Cubit and BLoC, MVVM, MVC, REST APIs, Firebase

Backend: Django, FastAPI

DevOps/Cloud: AWS (EC2, S3, Lambda), Git/GitHub, CI/CD

Other: Agile/Scrum, OOP, SDLC, Data Structures, Algorithms

Work Experience

Atoconn, Mumbai July 2022 – Present

Team Leader (Android/iOS Development)

- Led a 5-member cross-platform team in developing the next-generation **Wow Care 2.0** application with **Generative AI Copilot** (voice assistant) integration.
- Oversaw the launch and maintenance of **Wow Care 1.0** on Google Play and App Store, ensuring 80.00% uptime.
- Improved platform with **GPS-based login** and enhanced UI/UX, onboarding 5+ anchor customers.
- Directed Agile processes using **Jira** for iterative planning and project coordination.

SDE - 2

- Developed and optimized **WowInventory**, a smart childcare inventory system with real-time stock tracking and low-stock alerts.
- Built modules for supply requests, purchase orders, and vendor coordination, improving operational efficiency.
- Integrated expense and usage analytics dashboards for actionable budgeting insights.
- Designed intuitive UI for effortless navigation and improved task efficiency.

SDE - 1

- Designed and implemented the **Pine Wraps** app for cakes, flowers, and gifts with intuitive UI/UX and MVVM architecture.
- Developed the **Steel Bazaar** B2B platform for metals (iron, copper, gold) enabling high scalability.
- Enhanced **Pathpulse.ai** platform by refining core UI components for smoother UX.
- Developed **PayMitra** e-commerce app for seamless shopping and secure digital transactions.
- Collaborated with cross-functional teams in Agile environments for timely delivery and high quality.

Associate Software Intern Jul 2022 – Dec 2022

- Built the backend of **Alexia Learning App** with secure data handling and modular feature integration.
- Participated actively in Agile ceremonies and cross-team collaboration.

Education

Chhatrapati Shivaji Maharaj University Aug 2023 – Jun 2025
Master of Computer Applications (MCA) ***CGPA: 8.09/10***
Relevant Courses: Data Structures, Algorithms, Machine Learning, Databases, Operating Systems, Discrete Mathematics

Project Work

- **Chords Music Player (2025):** Desktop music player with spell-check functionality using Trie and edit-distance algorithms. *Technologies: Flutter, Dart, Firebase, Python/Django*

Awards and Certificates

- **Developing Mobile Apps with Flutter Specialization – Coursera**
